

Brad Edgar of Clearie Addresses CTA's Bay Area Unit Engine Retrofit Options Presented to Membership

Publisher: California Trucking Association
Date: April 2008

Above, Brad Edgar from Clearie Advanced Emission Controls talks to members of the Bay Area Unit about retrofitting issues. Above Right, The Clearie team answers CTA members questions following the formal meeting. Right, Brad Edgar shows CTA member a Clearie Longview retrofit device.

OAKLAND, CTA'S Bay Area Unit met February 21 at TEC of Oakland where members heard about engine retrofitting updates and recent California Air Resources Board regulations. Brad Edgar, President of Clearie Advanced Emission Controls spoke on engine retrofitting while CARB's Tony Brasil gave members an update on the latest developments from CARB, including the Clean Fleet Rule.

Other topics discussed at the meeting included policy issues, Kingpin activity and local matters.
